WebAPI

Coder Foundry, Web Software Engineer
Kernersville, NC · March 2017–July 2017

- Created a personal portfolio and blog website using C#, MVC5 and JavaScript.
- Created a fully functional MVC bug tracker web application, from scratch, implementing enhanced security and file uploading features.
- Created a fully functional financial portal web application using .NET MVC framework. Composed dynamic front-end design using partial views and AJAX.
- Created a fully functioning mobile vehicle information application using Xamarin. Accessed NHTSA's car recalls database using WebAPI2. Included images using Bing's Cognitive Image Search API. Built RESTful APIs and utilized Azure App Services.

Commonwealth Landscape Management, General Manager
Charlotte, NC · 2009–2016

- Established and operated successful landscape company
- Created processes and documentation for scheduling workload and allocating resources for orders
- Accurately accounted for revenue, material requirements, labor, and profit
- Generated monthly invoices through accounts receivable manager, with receivables of 20-50k/month

Nortel Networks, Contract Analyst
Dallas, TX · 2008–2009

- Led project team to increase cost savings in data processing
- Conducted process development/simplification through SAP automation and reduction of manual invoicing

Real Estate Investment, Operations Director/Partner
Asheville, NC · 2006–2008

- Managed contractors and supervised operations for multiple construction projects
- Performed and monitored daily construction operations to ensure timely project completion
